

AUSTIN EPILEPSY CARE CENTER

ROUTINE EEG INSTRUCTIONS

Hair: Do not use hair sprays, gels or mousse prior to the study. Please arrive with clean, dry hair. There is no need to cut your hair for this study.

Caffeine: Please limit caffeine intake 8 hrs prior to your appointment.

Food: You can eat prior to your appointment.

Medications: Do not stop taking your medications unless instructed otherwise by your physician

Insurance: If your insurance has an office visit copay, we will collect that at the time of your EEG. Some insurance policies will apply deductible or coinsurance to this test. **You may contact your insurance to verify your coverage by requesting coverage for CPT code 95816 (EEG testing) done in office.** We will file the claim for you and if your insurance applies any charges to your deductible/coinsurance we will send you a statement to remit payment at that time. Verification of benefits does not guarantee coverage and you will be responsible for anything your insurance applies as your responsibility per our financial policy.

Cancel/Reschedule: If you need to cancel or reschedule your appointment, we require 24 hour notice. Our technicians come to our office for your appointment and request notification of any changes 24 hours in advance.

Your EEG is scheduled for: _____
